

A Confiança Auditada: Novas Perspectivas na Gestão de Identidade no Meio Acadêmico

- Mais de 215 instituições na CAFe
- Preocupações com a segurança da federação
 - Relações de confiança entre as entidades (IdPs e SPs)
 - Alvo interessante: basta roubar uma credencial!

Educational Services

2017 Data Breach Investigations Report

10th Edition

Frequency	455 incidents, 73 with confirmed data disclosure
Top 3 patterns	Cyber-Espionage, Miscellaneous Errors and Everything Else represent 67% of all data breaches within Education
Threat actors	71% External, 30% Internal, 3% Partner (breaches)
Actor motives	45% Financial, 43% Espionage, 9% Fun (breaches)
Data compromised	56% Personal, 27% Secrets, 8% Credentials
Summary	This section will focus on confirmed data breaches, but Education remains a consistent target of Denial of Service (DoS) attacks also. 2016 results reflect a <u>substantial increase in the number of espionage-related breaches</u> .

DOJ INDICTS 9 IRANIANS FOR BRAZEN CYBERATTACKS AGAINST 144 US UNIVERSITIES

IN ITS LATEST drumbeat against the **cyber activities of Iran**, the US government Friday charged nine Iranian hackers with a massive three-year campaign to penetrate and steal more than 31 terabytes of information—totaling more than \$3 billion in intellectual property—from more than 300 American and foreign universities.

Iranian Hackers Charged in March Are Still Actively Phishing Universities
